

Health Psychology/Behavioral Medicine/Integrated Care

ABCT 2018 Programming

FRIDAY, NOVEMBER 16

8:30 AM - 10:00 AM

Symposium 4 – Web-Based Avoidance Training in Smoking: A Replication Study

Location: Thurgood Marshal South

8:30 AM - 11:30 AM

Workshop 2 – Developing a Trauma-Informed Treatment in Primary Care: The embrACE Model for Patients With Adverse Childhood Experiences

Location: Washington 6

8:30-9:30am

Poster Session (see below for individual poster titles)

Location: Exhibit Hall B South

9:45-10:45am

Poster Session (see below for individual poster titles)

Location: Exhibit Hall B South

12:00 PM - 1:00 PM

Symposium 22 – Treatment of Behavioral Health Problems: Pediatric Primary Care

Symposium 22-1 – Predicting and Improving Show Rates in Integrated Primary Care

Symposium 22-2 – Insomnia Symptoms, Poor Sleep, Behavioral Concerns in Preschoolers

Symposium 22-3 – Screening for Adolescent Depression in Large Pediatric Care Network

Symposium 22-4 – Integrated Behavioral Health Services in Pediatric Primary Care

Location: Virginia B

12:00 PM - 1:30 PM

Workshop 2 – Predicting and Improving Show Rates in Integrated Primary Care

Location: Virginia B

1:30-2:30pm

Poster Session (see below for individual poster titles)

Location: Exhibit Hall B South

1:45 PM - 3:15 PM

Panel Discussion 10 – Integrating Technology in Behavioral Medicine and Primary Care: Opportunities and Challenges

Location: Thurgood Marshal South

3:00 PM - 6:00 PM

Workshop 5 – You Were Meant for Primary Care: A Practical, Competency- Based Approach

Location: Washington 6

3:30 PM - 5:00 PM

Symposium 48 – Substance Use and Psychological Barriers to HIV Prevention and Treatment Among MSM

Symposium 48-1- Stigmas of HIV Self-Care Among Men With Men Sex Who Use Substances

Symposium 48- 2- PTSD and Current Alcohol Use Through Negative Cognitions in Sexual-Minority Men

Symposium 48 - 3 - PTSD and Crystal Methamphetamine Use in MSM With Childhood Sexual Abuse Histories

Symposium 48 - 4 - Pain and Substance Use Disorders Among Older HIV-Infected Sexual-Minority Men

Symposium 48 - 5 - Social Anxiety, Alcohol Use, and HIV Prevention for HIV-Negative Gay and Bisexual Men

Location: Virginia B

6:30 PM - 8:30 PM

Special Session – Friday Night Welcome Party and SIG Expo

Location: Marriot Ballroom 1,2 & 3

SATURDAY, NOVEMBER 17

8:00 AM - 11:00 AM

Workshop 10 – Cognitive-Behavioral Therapy for Chronic Gastrointestinal Disorders

Location: Roosevelt 2

9:00 AM - 10:00 AM

Symposium 67- Personalized and Precision Approaches to Discrete Behavior Change

Symposium 67-1- Machine Learning for Selection and Behavioral Prediction of Routine Smoker

Symposium 67-2- Personalized Networks of Symptoms at Mealtime in Individual with ED

Symposium 67-3- Personalized Approached to Interventions for Smoking Cessation

Location: Delaware B, Lobby Level

9:00 AM - 10:00 AM

Symposium 68 – Behavioral Medicine: Cognitive Vulnerability in Chronic Health Conditions

Symposium 68-1- Anxiety, Depression, and Symptoms: Patients with Acute Coronary Syndrome

Symposium 68-2- Lung Function, Symptom Management, and Quality of Life of Adults with Asthma

Symposium 68-3- Anxiety, Depression, and Headache Severity in Women with Migraines

Location: Roosevelt 5

9:45- 10:45am

Poster Session (see below for individual poster titles)

Location: Exhibit Hall B South

10:15 AM - 11:45 AM

Symposium 87 – Examining the Role of Anxiety in Maladaptive Health Behaviors

Symposium 87 - 4 - Health Behaviors, PTSD, and Comorbid General Anxiety and Depression

Symposium 87 - 5 - Negative Affect-Related Smoking Cognition of Treatment Seeking Smokers

Location: Lincoln 4, Exhibition Level

10:15 AM - 11:45 AM

Symposium 80 – Bilingual BA Teletherapy Intervention Among Low-Income Primary Care Patients

Symposium 80 - 4 - HIV Meds Adherence in Resource-Limited Care in South Africa

Symposium 80 - 5 - BA for Depression and Medication Adherence in HIV in South Africa

Location: Virginia A

1:45 PM - 3:15 PM

SIG Meeting – Behavioral Medicine and Integrated Primary Care

Location: Wilson C

3:30 PM - 5:00 PM

Symposium 116-1—Optimize Level of Supportive Accountability in Weight Loss Intervention

Location: Lincoln 2

SUNDAY, NOVEMBER 18

8:30 AM - 10:00 AM

Symposium 121– Assessing and Treating Pediatric Patients with Autonomic Dysfunction

Symposium 121 - 1 - Postural Tachycardia and Orthostatic Intolerance in Adolescents: Pain Rehab Program

Symposium 121 - 2 - Biofeedback in the Treatment of Postural Orthostatic Tachycardia Syndrome

Symposium 121 - 3 - Group-Based Intervention for Pediatric Autonomic Dysfunction and Comorbidities

Symposium 121 - 4 - Rehabilitation for Youth With Dysautonomia/Postural Orthostatic Tachycardia Syndrome

Location: Harding

Symposium 125 - Innovations in Behavioral Interventions for Disturbed Sleep

Location: Maryland B

10:15 AM - 11:45 AM

Symposium 137-3- Smokebeat: A Novel Smoking Cessation App Utilizing Big Data Over Wearables

Location: Maryland C , Lobby Level

Symposium 142-1– Understanding the Emotion Regulation Benefits of Exercise

Location: Wilson A

Symposium 144 - 4 - Barriers of Yoga Intervention Adherence for Anxiety-Sensitive Smokers

Location: Hoover, Mezzanine Level

Symposium 143 - 5 - Psychiatric Symptom Contributors to Weight Loss After Bariatric Surgery

Location: Coolidge

POSTER SESSIONS

Poster Session - Friday Nov 16 8:30-9:30am

Location: Exhibit Hall B South

PS1-A23 - A comparison of homeless veterans' utilization of substance use and other kinds of treatment in a large local VA healthcare system

PS1-A6 - What to Expect About Quitting Smoking: The Role of Smoking and Abstinence Expectancies

PS1-B43 - The influence of state worry and rumination on inflammation and gastric functioning:
Relationships between cognitive, immunological, and physiological markers

PS1-D87 - Trauma Exposure, PTSD and Smoking: Evaluation of the Psychosocial and Clinical
Characteristics of Smokers

PS1-D92 - Association between Tobacco Use, PTSD Symptom Clusters, and Mood Among Veterans
Presenting to a VA Outpatient Posttraumatic Stress Disorder Clinic

PS1-D100 - Examining the Mechanisms Underlie the Association of PTSD and Nicotine Dependence: A
Parallel Multiple Mediator Analysis

Poster Session - Friday Nov 16 9:45-10:45am

Location: Exhibit Hall B South

PS2-B27 - Non-daily Smokers Responses to Measures of Nicotine Dependence

PS2-B38 - Differences in drug and alcohol use among Veterans with and without probable traumatic brain
injury seeking substance use treatment

PS2-C63 - Proactive Aggression as a Predictor of Cortisol Reactivity in Youth

PS2-B25 - Environmental Reward, Goal-Directed Activation, and Depressive Symptoms as Predictors of
Nicotine Patch Adherence in a Randomized Controlled Trial of Behavioral Activation for Smoking
Cessation

PS2-B42 - Taking the blame versus taking responsibility: Self-blaming thinking about nicotine craving as a
mediator between depressive symptoms and smoking outcomes

PS2-B41 - Intersecting stigmas of HIV and substance use: Barriers at multiple levels to HIV self-care in
South Africa

PS2-B29 - Addressing myths around alcohol and HIV treatment: A target for behavioral intervention in HIV
care in South Africa

Poster Session - Friday Nov 16 1:30-2:30pm

Location: Exhibit Hall B South

PS5-D87 - Anxiety and Depression Mediate the Relation between Experiential Avoidance in Asthma and
Clinical Outcomes

PS5-D79 - Bringing Mindfulness to the Inner City: A Modified Mindfulness -Based Stress Reduction
Group Intervention for Chronic Pain in Psychiatric Outpatients

PS5-D89 - Cognitive Behavior Therapy for Menopausal Symptoms: Outcomes from a Randomized
Controlled Trial Evaluating the CBT-Meno Program

PS5-D90 - Cognitive-Behavioral Coping Strategies and Acceptance in Women with Parkinson's Disease

- PS5-D81 - Depression and the Use of Health Behaviors to Cope with Stress: A Daily Diary Study
- PS5-D86 - Distress tolerance as an etiological factor in the relation between stress and gut-related malady?
- PS5-D88 - Examining Sex Differences in Dimensions of Compulsive Exercise
- PS5-D82 - Gut Microbiome and Psychological Distress: Is Gut Bacteria Associated with Mood?
- PS5-D80 - Health- and risky-behavior clustering in a sample of emerging-adult college students: Examining differences in executive functioning
- PS5-D85 - The effect of trauma exposure and PTSD on HIV medication adherence
- PS5-D76 - Coping Strategies Used by Siblings and Parents When a Child Has Cancer
- PS5-D74 - Health indicators, depression and anxiety in Brazilian 13 year old adolescents
- PS5-D77 - Longitudinal Relations Among Glycemic Control and Internalizing Symptoms Among Youth with Type 1 Diabetes
- PS5-D78 - Primary and Secondary Control Coping Strategies Predict Posttraumatic Stress, Depressive, and Anxious Symptoms in Parents of Pediatric Brain Tumor Patients
- PS5-D73 - Psychological Risk Factors Differentiating Pediatric NCCP From Children With Benign Cardiac Conditions
- PS5-D75 - The relationship between cognitive regulation and exercise intent in adolescents considering future consequences
- PS5-D72 - The Utility of Biofeedback Technology in Interoceptive Sensitivity for Pediatric Migraine Pain

Poster Session - Saturday Nov 17 9:45- 10:45am

Location: Exhibit Hall B South

- PS9-C51 - Addressing Mental Health Concerns in Primary Care: Practices and Perceived Competency among Medical Residents
- PS9-C71 - Body Vigilance in the Prediction of Health Anxiety: The Moderating Role of Experiential Avoidance
- PS9-C65 - Brief psychological interventions supported by technologies for the promotion of wellbeing of cancer inpatients: who benefits the most?
- PS9-C54 - Depression and Anxiety Among HIV-positive Men who have Sex with Men and Men who have Sex with Women in China
- PS9-C72 - Disgust regulation across menstrual cycle phase

- PS9-C56 - Examining Associations between HIV Acquisition Risk Behavior and Syndemic Conditions among Young Latino Men Who Have Sex with Men
- PS9-C66 - Examining the Roles of Anxiety Sensitivity and Perceived Stress in the Relation between Stress, Anxiety, and Physical Health
- PS9-C70 - Facilitators and barriers to using actigraph technology to study sleep in an underserved sample of people living with HIV/AIDS
- PS9-C75 - Feasibility, adherence, and validity of actigraphy and sleep diary monitoring to study sleep behavior in an underserved sample of people living with HIV/AIDS
- PS9-C60 - Impact of cognitive behavioral factors on depressive symptoms in recipients with undergoing living-related kidney transplantation
- PS9-C68 - Irritable Bowel Syndrome, Fecal Incontinence and Quality of Life: It Depends on How You Think About It
- PS9-C74 - Modeling trajectories of insomnia in an underserved sample of people living with HIV/AIDS: The role of depressive symptoms
- PS9-C58 - Pain-related decrements in CVLT-2 performance are not explained by Pain Catastrophizing
- PS9-C59 - Positive Thinking and Physical Health in German Adults: The Unique Effects of Hope, Optimism, and Self-Efficacy
- PS9-C61 - Racial Differences in Knowledge Pertaining to Smoking After a Cancer Diagnosis
- PS9-C53 - Social Problem Solving as a Predictor of Posttraumatic Growth in Postoperative Breast Cancer Survivors
- PS9-C64 - Stress sensitivity moderates the relationship between occurrence of naturally occurring stressful life events and changes in inflammatory biomarkers
- PS9-C69 - Stress, Social Problem Solving, and Irritable Bowel Syndrome: An Investigation of Interactive Influences
- PS9-C73 - The indirect effect of pain in the relationship between sleep disturbance and illness intrusiveness in patients with multiple sclerosis
- PS9-C67 - The Relative Contributions of Neuroticism and Depression to Somatic Symptom Reporting, Symptom-Related Distress, and Intentions to Engage in Illness Behavior
- PS9-C52 - Toward Validation of a Broad Behavioral Health Screener for Primary Care – The Adult Wellbeing Survey
- PS9-C55 - Trajectories of Self-Care Confidence in Patients with Heart Failure are Associated with Instrumental Support
- PS9-C57 - Which Factors Predict Level of Exercise Engagement in College students?
